TITLE INDEX
Volume 59
1987

A

A comparison of biological and chemical phosphorus removals incontinuous and sequencing batch reactors (Ketchum, Irvine, Breyfogle, Manning) 13
A comparison of trickling filter media (Harrison Daigger) 679
A fundamental model for trickling filter process design (Logan, Hermanowicz, Parker) 1029
A new emphasis on safety (Editorial) 841
A new role for the states in water pollution control financing (Smith) 657
A new role for WPCF (Editorial) 119
A surface complex model for adsorption of trace components from wastewater (Batchelor, Dennis) 1059
Accuracy and precision enhancement for total residual chlorine back titration (Communication) (Stockmeier, Huber, Kohl) 1075
Activated sludge clarifiers: design requirements and research priorities (Tekippe, Bender) 865
Alternating aerobic and anaerobic operation of an activated sludge plant (Gonzalez-Martinez, Staud, Wilderer, Hartman, Norouzian) 65
An environmental anniversary (Editorial) 235
An integrated process for biological treatment of sulfate-containing industrial effluents (Maree, Gerber, Hill) 1069
Anaerobic degradation of chlorinated solvents (Vargas, Ahlert) 964
Anaerobic digester mixing systems (EPA Design Information Report) 162
Anaerobic fluidized bed and anaerobic filter/contact stabilization application for heat treatment liquor (Pugh, Kang, Spangler) 1050
Analysis of full-scale SBR operation at Grundy Center, Iowa (Irvine, Murthy, Arora, Copeman, Heidman) 132
Another 10 years (Editorial) 799
Assessing the need for wastewater disinfection (Haas) (Feature) 856
Assessment of design traedoffs when using intrachannel clarifiers (Bender) 871
Assessment of phased isolation ditch technologies (Tetreault, Rusten, Benedict, Kreissl) 833

B

Biological enhancement of oxygen transfer in the activated sludge process (Mines, Sherrard) 19
Biological testing to control toxic water pollutants (Wall, Hanmer) (Feature) 7
Building fund on target (Editorial) 635

C

Capacity of a swamp forest to assimilate the TOC loading from a sugar refinery wastewater stream (Gambrell, Khalid, Patrick) 897
Coagulation of organic suspensions with aluminum salts (Dentel, Gossett) 101
Composting's emerging role in sludge management: a national perspective (Kuchenrither) (Feature) 125
Control of anaerobic digester foaming (Tetreault) (Communication) 987
Control of *Nocardia* scum in activated sludge by periodic anoxia (Gasser) (Communication) 914
Conversion of municipal sludge to oil (Lee, Griffith, Farrell, Eralp) 884
Conversion of small municipal wastewater treatment plants to sequencing batch reactors (Melcer, Bedford, Topnik, Schmidtke) 79
Credibility through visibility (Presidential message) 2

D

Design and evaluation of biofilter treatment systems (Johnson, Van Durme) 1043
Design optimization for dual power aerated lagoons (Kouzell-Katsiri) 825
Design, operational and cost considerations for vacuum assisted sludge dewatering bed systems (Condren, Wallace, Cooper, Kreissl) EPA Design Information Report 228
Determination of nitrate in water using ammonia probes and reduction by titanium (III) 905
Development of a dynamic aerated lagoon model (Sackellares, Barkley, Hill) 877
Development of a rationally based design control protocol for the ultraviolet light disinfection process (Scheible) 25
Diurnal patterns of ammonium loading and loss in a stream receiving secondary treatment effluent (Crumpton, Hersh) 60

E

Effective communication with the public on water pollution control issue (Brown) (Feature) 851
Effects of temperature, time and biomass on wet air regeneration of carbon (Ding, Snoeyink, Larson, Recktenwalt, Wedeking) 139
Engineering implications of a new trickling filter model (Logan, Hermanowicz, Parker) 1017
Enhancement of anaerobic treatment efficiency through process modification (Harper, Pohland) 152
Enumeration of fecal coliforms and E. coli in marine and estuarine waters: an alternative to the APHA-MPN aproach (Rippey, Adams, Watkins) 795
EPA's Larry Jensen: states enter new era of water pollution control (Monitor) 921
Estimating volatile organic compound (VOC) emissions from publicly owned treatment works (POTWs) (Namkung, Rittmann) 670
Evaluation of a pulsed bed filter for filtration of municipal primary effluent (Brown) 72
Evaluation of activated biofiltration and activated biofiltration/ activated sludge technologies (Arora, Umphres) 183
Evaluation of oxygen uptake rate as an activated sludge process control parameter (Chandra, Mines, Sherrard) 1009
Extreme event analysis of pesticide loads to surface waters (Haith) 284

F

Fate of organic compounds in land application of contaminated municipal sludge (Demirjian, Joshi, Westman) 32
Foaming in anaerobic digesters— a survey and laboratory investigation (van Niekerk, Kawahigashi, Reichlin, Malea, Jenkins) 249

H

Heavy metals in soils from land reclamation with sludge (Tackett) (Communication) 294
Household hazardous waste: the unresolved water quality dilemma (Monitor) 120
Hydraulics of horizontal shaft oxidation ditches (Hartley) 686

I

Implementation of a water quality-based strategy for protection of aquatic life (Dunbar) 761
Improved design and operational practices for municipal sludge incinerators (Gilbert) (Feature) 939

Evaluation of oxygen uptake rate as an activated sludge process control parameter (Chandra, Mines, Sherrard) 1009
Extreme event analysis of pesticide loads to surface waters (Haith) 284

F

Fate of organic compounds in land application of contaminated municipal sludge (Demirjian, Joshi, Westman) 32
Foaming in anaerobic digesters— a survey and laboratory investigation (van Niekerk, Kawahigashi, Reichlin, Malea, Jenkins) 249

H

Heavy metals in soils from land reclamation with sludge (Tackett) (Communication) 294
Household hazardous waste: the unresolved water quality dilemma (Monitor) 120
Hydraulics of horizontal shaft oxidation ditches (Hartley) 686

I

Implementation of a water quality-based strategy for protection of aquatic life (Dunbar) 761
Improved design and operational practices for municipal sludge incinerators (Gilbert) (Feature) 939

Improving heavy metal sludge dewatering characteristics by recycling preformed sludge solids (Knocke, Kelley) 86

K

Kinetics of downflow anaerobic attached growth reactors Kennedy, Hamoda, Droste) 212

L

Land application of sludge in San Diego (Crites, Richard) 774
Leaching of toxic metals from incinerator ashes (Francis, White) 979
L.A. hyperion wastewater treatment plant: victim or villain? (Nichols) (Feature) 932

M

Metrication overview: A report from the chairman of the Metrication Committee (Vernick) 810
Modeling an aerated bubble ammonia stripping process (Powers, Collins, Edzwald, Dietrich) 92
Monitoring and study program of an interregional wastewater reclamation system for agriculture (Rebhun, Ronen, Eren) 242

N

Nitrification enhancement in powdered activated carbon-activated sludge process for the treatment of petroleum refinery wastewaters (Ng, Stenstrom, Marrs) 199
Nitrogen mass balance in streams receiving secondary effluent: the role of algal assimilation (Crumpton, Isenhart) 821

O

Ocean's role in a multimedia disposal environment (Marine Water Quality Committee) 927
Operational variables affecting performance of the selector-complete mix activated sludge process (Linne, Chiesa) 716
Organic contaminants removal for potable reuse (Rogers, Peterson, Lauer) 722
Organic halide and organic carbon distribution and removal in a pulp and paper wastewater lagoon (Bryant, Amy, Alleman) 890

P

Partnerships for the future (WPCF Presidential Message) 800
Performance of a natural wetland treatment system for wastewater management (Knight, McKim, Kohl) 746
Phosphate release and uptake in enhanced biological phosphorus removal from wastewater (Comeau, Rabinowitz, Hall, Oldham) 707
Pilot testing for combined treatment of leachate from a domestic waste landfill site (Kelly) 254
Potential and actual biological-related risks of wastewater industry employment (Clark) (Feature) 999
Precursors of non-volatile chlorination by-products (Fam, Stenstrom) 969
Pretreatment of industrial wastes: A dialogue—Implement EPA's program (Hair) 654
Pretreatment of Industrial Wastes: A Dialogue—The system is too complex (Campbell) 655
Prospects for the new year (Editorial) 1
PWOD: poised for growth (Editorial) 63

R

Ranking environmental risks (Editorial) 171
Rapid removal of colloidal substrate from domestic wastewaters (Bunch, Griffin) 957
Recycling to reduce sediment discharge in placer mining operations (Johnson, Chapman, Lipchak) 274
Redesign of a land treatment system to protect groundwater (George, Leftwich, Klein, Claborn) 813
Regional infiltration/inflow study solves wet weather sewer problems (Bishop, Dierner, Wallis) 289
Regulating the distribution and marketing of municipal sludge products (Kuchenrither, Residuals Management Committee) (WPCF Issue Paper) 664
Removal of hazardous organic pollutants by biomass adsorption (Bell, Tsezos) 191

S

Safety is job one (Editorial) 989
Sidestreams in wastewater treatment plants (EPA Design Information Report) 54
Skeleton builders for conditioning oily sludge (Zall, Rebhun) 699
Solvent regeneration of dye-laden activated carbon (Posey, Kim) 47
Something new for those in the lab (Editorial) 737
Spatial hydraulic response of a subsurface effluent line source (Wilson, Scott, Marx) 944
State of the art hydrograph controlled release (HCR) lagoons (Zirschsky, Thomas) 695
Statistical analysis of industrial wastewater monitoring data Loftis, Porter, Settembre) 145

T

The acid rain storm (Editorial) 919
The competitive growth of *Zoogloea Ramigera* and Type 021N in activated sludge and pure culture—a model for low F:M bulking (van Niekerk, Jenkins, Richard) 262
The control of bulking sludges: from the early innovators to current practices (Albertson) (Feature) 172, 656
The development of a total suspended solids standard (Strizak) (Communication) 115
The effect of chemical composition of water on Henry's Law Constants (Yurteri, Ryan, Callow, Gurol) 950
The greater Cairo wastewater project (Thomas, Acheson, Paul, Goad, Hall, Miller, Blake, Pronske, Swayne, Elliott, West, Gustufson, Zobrist, Sefwat) 636
The impact of EPA's biomonitoring policy on POTWs (Grimes) 755
The influence of photoreactivation and water quality on ultraviolet disinfection of secondary municipal wastewater (Harris, Adams, Sorensen, Dupont) 781
The Philadelphia Water Department—a regional utility (Walker) (Feature) 804
The place of nonpotable reuse in water management (Crook, Okun) (Feature) 237
The use of algal growth potential test for data assessment (Raschke, Schultz) 222
Total organic halogen (TOX) formation potentials in activated sludge treatment and small rivers (Suzuki, Nakanishi) 767
Two-stage cyclic operation of anaerobic filters (Howerton, Young) 788

U

Uptake of metal ions by sulfonated pulp (Ali, Cooper, Neufeld) 109

W

Wastewater treatment meets third world needs (Monitor) 739
Water quality modeling using personal computers (Lung) (Communication) 909
Wet air oxidation of anaerobically digested sludge (Wu, Hao, Olmstead, Hsieh, Scholze) 39
World's water markets beckon consultants and suppliers (Monitor) 842
WPCF's 60th Annual Conference was one for the record books (Nichols) (Feature) 990

AUTHOR/SUBJECT INDEX

Volume 59

1987

A

Acheson, A. M., Greater Cairo Project 636
Acid rain, wildlife effects 560a
Activated biofiltration, system design evaluation 183
Activated carbon
addition to refinery wastewater 199
solvent regeneration 47
wet air regeneration 139
Activated sludge
PAC treatment of refinery waste 199
clarifier design and research needs 965
competitive microorganism growth 262
completely mixed process 172, 656, 733, 1076
contact stabilization process 957
leachate treatment 254
optimizing efficiency 65
organic chemical adsorption 191
oxygen transfer 19
treatment of total organic halogen 767
with activated biofiltration 183
Activated sludge process control 1007
selector performance 716
VOC emissions 670
Activated sludge systems (Lit. Review) 388
Adams, V. D., UV disinfection and photoreactivation 781
Adams, W. N., fecal coliform analysis 795
Adsorption
biomass 191
capacity of regenerated carbon 139
isotherms for refinery waste 199
metals by sulfonated pulp 109
surface complex model 1057
Advanced wastewater treatment, wetland discharge 746
Aerated stabilization basins, design model 877
Aeration
oxygen transfer 19
SBR operation 132
Aerators, oxidation ditch design 686
Aerobic digestion (Lit. Review) 401
Aerobic metabolism, after anaerobic storage 65
Aerobic processes, phosphorus uptake and nitrification 707
Agricultural wastes (Lit. Review) 450
Ahlert, R. C., chlorinated solvent treatment 964
AIDS, employee exposure 999
Air pollutants, activated sludge process 670
Air stripping, ammonia removal 92
Albertson, O. E., sludge bulking control 172, 656, 733, 1076
Algae, assimilation of nitrogen 821
Algal growth potential test, application 222
Ali, A. A., pulp adsorption of metal ions 109
Alleman, B. C., pulp and paper wastewater lagoons 890, 1081
Alum, for P removal 13
Alumina, adsorbency 1057
Aluminum nitrate, coagulation with 101
Ammonia
loads and losses in streams 60
removal by air stripping 92
Ammonia electrode, use in nitrate analysis 905
Amy, G. L., pulp and paper wastewater lagoons 890, 1081
Anaerobic conditions
effect on effluent 65
sludge bulking control 172, 656, 733, 1076
Anaerobic digestion
chlorinated solvents 964
foaming 249
mixing systems 162
with wet air oxidation 39
Anaerobic filters, performance evaluation 788
Anaerobic processes
(Lit. Review) 403
cyclic operation performance 788
phosphorus uptake and nitrification 707
Anaerobic systems, fluidized bed and filter 1048
Anaerobic treatment, hydrogen 152
Analysis
fecal coliform 795
oil separation method 884
potentiometric method for nitrate-nitrogen 905
residual chlorine method accuracy 1073
waste extraction test 979
Anoxic selector, scum control 914
Arora, M. L.
activated biofiltration 183
SBR operation 132
Aryan, A. F. trickling filter media 915, 1081
Autocorrelation, wastewater data 145
Automated analysis (Lit. Review) 356

B

Bacteria, photoreactivation 781
Bacterial pathogens (Lit. Review) 625
Barkley, W. A., aerated lagoon design 877
Batchelor, B., trace contaminant adsorption 1057
Bedford, W. K., small plant conversion to SBR's 79
Bell, J. B., biomass adsorption of organics 191
Bender, J. H.
clarifier design and research 865
intrachannel clarifiers 871
Benedict, A. H., phased isolation ditch 833
Bioactivity, effects of chlorinated solvents 964
Bioassays
EPA program 7
NPDES permit strategy 761
Biofilm reactor, treatment kinetics 212
Biofilter, design model 1041
Biological activity
anaerobic conditions 65
selector effects 716
Biological treatment
anaerobic filters 152
conversion to SBR's 79
P removal 13, 707
sulfate in effluents 1067
Biomonitoring
NPDES permit strategy 761
regulatory impact 755, 607a
Bishop, W. J., regional infiltration/inflow study 289
Blake, R. C., Greater Cairo Project 636
BOD
oxygen uptake rates 1007
key biofilter design parameter 1041
removal by biofiltration 183
SBR operation 132
trickling filter design 1027
Boston Harbor, discharge permit dispute 304
Breyfogle, R. E., phosphorus removals 13
Bromine chloride, disinfection 856
Brown, D. S.. pulsed bed filtration 72
Brown, Q., public education 851
Bryant, C. W., pulp and paper wastewater lagoons 890, 1081
Bunch, B., contact stabilization process 957
Busch, A. W., sludge bulking control (Discussion) 1076
Business, foreign trade markets (Monitor) 842

C

Cadmium, sludge-reclaimed land 294
Cairo, wastewater control project 636
Calcium, phosphate release 707
Campbell, H. J., pretreatment 655
Chandra, S., activated sludge process 1007
Chapman, J. H., pretreatment of mining wastewater 274
Chemical industry wastes (Lit. Review) 478
Chemical treatment
coagulation by aluminum 101
for P removal 13
hydroxide precipitation of metals 86
Chiesa, S. C., activated sludge selectors 716
Chesapeake Bay, Clean-up pact 720a
Chlorinated solvents, anaerobic treatment 964
Chlorination
risks, benefits, and impacts 856, 1081
TOX precursors 969
Chlorophenol, adsorption on carbon 47
Claborn, B. J., land treatment 813
Clarifiers
design and research needs 865
intrachannel design 871
Clark S., occupational health hazards 999

Clean Water Act
Clean Water Act, prospects in '87 26a
state revolving funds 657, 921
veto override 107a
violation penalties 681a
Coagulation, with aluminum salts 101
Coal mine wastes and drainage (Lit. Review) 457
Coastal waters, OTA report 405a
COD, oxygen uptake rates 1007
Coliform analysis, comparison of methods 795
Collection of wastewater (Lit. Review) 362
Collins, A. G., air stripping of ammonia 92
Colloids, destabilization with aluminum salts 101
Combined sewer overflow (Lit. Review) 432
Comeau, Y., P removal mechanism 707
Composting
